School Children Are Idle

VACATION days are days of over-eating and under-exercising for most boys and girls. They loll around nibbling at light food, unconcerned whether the fruit is green or ripe.

The result is cramps, skin eruptions, pimples, "number coids," constitution and dustries. It is the mildest and gentlest of laxatives in upoet stemach, and nothing will give safer and quarker telled than the well-known Dr. Caldwell's Sycop Pepan, it is just a combination of simple laxative helps with pepain, a formula evolved some 30 years aga by Dr. Caldwell showed by millions of people and is today the millions of people and is today the

Support Needed For Oil Rights Bill At Austin

Rights Bill At Auslin

Senate bill it and house bill 76, both identical and having to do with revision of the petroleum laws of Texas, have been amended at Austin until they are now minfactory to all factions, including the cattlemen and the owners of surface rights.

The measures are ready for reporting for a vote in the house and senate, but there is a fear that some of the east Texas representatives will not support the measures. Therefore the suggestion comes from friends of the bill that fil Pascans and west Texas get into communication with friends in east and south Texas at once and have them urgs that representatives to vote for the measure. The bills extend the time in which holders of patroleum rights may prospect for oil and also give a royalty to the cattlemen who hold the surface rights, as well as to the state.

Western Texas is deeply interceted in securing the passage of this bill, which will mean the development of oil fields.

San Diego Early in August.

Commencing tonight, JULY 9, until SEPTEMBER 1, 1919, we will discontinue our Dansant. We thank our many friends for the splendid patronage given us, and take pleasure in announcing that, commencing with our opening for next season, SEPTEM-BER 1, we promise some big surprises.

At this time we can only say that in keeping with the past, commencing with the new season, we will excel all expectations. The Buyerstadt orchestra will continue their famous concerts as usual for lunch, from 12 a. m. to 1 p. m., and dinner, from 6:30 to 8:30 p. m.

Sheldon Cafe

The BIG BEND OIL & GAS CO.

A joint stock company, unincorporated, which is situated in the Big Bend in Presidio Co., Texas, is a new born Oil Company with capital stock of \$350,000. Par value, \$1 per share.

This Company owns lease on 640 acres of ground in Presidio Co., Texas, in one of the most favored locations in the great State of Texas, "The Oil Field of the World."

THE GEOLOGICAL MAP GOTTEN UP BY DR. J. A. UDDEN, OF THE UNIVER-SITY OF TEXAS, INDICATES THAT THIS LAND CONTAINS OIL, GAS, COAL, AND QUICKSILVER. WHAT OIL FIELD OFFERS GREATER IN-DUCEMENTS TO THE INVESTOR?

Drilling for oil is always a speculation, but this field has as good if not better indications, on the University Map, than any other in the State of Texas, as eminent a man as Dr. J. A. Udden can hardly be mistaken, he has painted this favored field so favorable that none other need attempt to do greater, homage. Today is our first day in existence, and we are going some; watch our progress in the future. Get in now, if we strike oil all investors in this company will be well to do. This field is opposite the inmous "Rim Rock" that lies just across the Rio Grande in Mexico, about 170 miles southeast of El Passa Texas.

In addition to all other favorable indications the Geological Map shows distinct anticlines at intervals, all over the surface of our boldings, a distinction that no other company can beast of. A good field must have the anticlines. The formation is Upper cretaceous, Quaternary and Penn.
